

Terms and Conditions of Use

* This Reference guide includes topics intended for use by trained healthcare professionals only. Nurses and other healthcare professionals who use this reference guide should exercise their own clinical judgment when treating and providing advice to patients. TL and its licensors disclaim any and all liability for the use of this guide, which is to be used at the customer's own risk and responsibility, and in particular disclaims responsibility for any harmful consequence, loss, injury, or damage associated with the use and application of information or advice included in the guide. TL and its licensors make no warranty of any kind regarding the information, either express or implied.

TL Group content developers carefully create content to conform to the standards of professional practice that prevail at the time of writing. However, standards and practices in medicine change as new data become available and the individual medical professional should verify accuracy before using the information. Neither we nor our content providers guarantee that the content covers all possible scenarios or situations that may be associated with any of the topics covered.

**NON-LICENSED AND NON-HEALTH
PROFESSIONALS SHOULD NOT USE THIS
GUIDE.**
